

We Support

Human Rights in Fiji

Commodore Bainimarama,

I am a union member and I have grave concerns for the human rights and working rights of Fijian citizens.

I support my union colleagues in Fiji and call upon you to:

- Cease all arbitrary detention of critics and activists and immediately drop all charges against Mr Daniel Urai, President of Fiji Trade Union Congress
- Repeal the Public Emergency Regulation and allow for peaceful assembly and freedom of expression
- Restore the industrial protections of the Employment Relations Promulgation 2007 to civil servants
- Repeal the Essential National Industries Employment Decree and restore freedom of union association to workers in Fiji

I urge you to take these actions and return human rights and freedom to Fijian citizens.

Thank you for your attention.

Signed:
